

Granny Heart Bunting

This cute heart shaped bunting will brighten up any corner of your home and can be as decorative or as simple as you like.

Materials:

As many different colours of sport or dk yarn as you would like to use for the hearts. Each heart takes less than 15 yards of yarn. (I used Debbie Bliss Baby Cashmerino)

You will also need some of the same weight yarn to make the bunting 'string', (I used a total of 70 yards, in three different colours)

4mm (G or H USA) crochet hook

Yarn needle

Buttons, beads, sequins, ribbon or any decorative touch that takes your fancy.

Sewing needles and cotton

This pattern is written using English crochet terms. However, I have included the American terms so you can convert the pattern.

Word to the crochet wise:

I'm sure many of you will know how to make a granny square, but before you get stuck in, be warned that I've not started and ended rounds in the usual way, so be sure to check over the pattern before you start.

Decorate (or not!)

If you like, you could just leave you bunting at that. After all, it already looks good as it is, don't you think? However, if you want, break open your buttons, beads, ribbons and all other lovely decorative items you can lay your hands on and have some fun!

If you like, you can use the pictures on my blog (sandra-cherryheart.blogspot.com) for some ideas to get you started, but I'm sure you'll have plenty of your own.
