Row 68: (K2, P2) x6, K2, P2tog, P1, (K2, P2) to end

Rows 69 - 110: K2, P2

Kitchner 36 stitches

Kitchner:

Distribute your 36 stitches 2 needles, 18 on the one close to you, and 18 on the one further away. Cut your yarn, leaving a tail of at least 2 feet. Thread the end of the yarn into a darning needle.

Place the darning needle into the first stitch on the forward needle as though you are going to purl, pull the yarn through, leave the stitch on the needle. Place the darning needle through the first stitch on the rear needle as though you are going to knit, pull the yarn through, leave the stitch on the needle.

On the forward needle, using the darning needle, pull the yarn through as though to knit, pull the stitch off, pull the needle through the second stitch as though to purl, leave the stitch on.

On the rear needle, using the darning needle, pull the yarn through as though to purl, pull the stitch off, pull the needle through the second stitch as though to knit, leave the stitch on.

Continue down the pair of needles: Knit off, purl on, purl off, knit on.

Once done, weave in ends and block as needed.
