

Mp3 player cuff

Pattern by SuperTinks

Finished size: Fits a small mp3 player (mine is a Creative Zen stone, 2" x 1.5")

Materials: Sirdar Supersoft Aran
Hook size 5mm
Yarn needle

Stitch guide: I have used American stitch names throughout

Main strap

1. Make a foundation chain of 8 foundation single crochet stitches
2. ch1, turn, sc in each stitch across (8 stitches)
3. ch1, turn, sc in first two stitches, ch4, skip next 4 stitches, sc in last two stitches (8 stitches)
4. ch1, turn, sc in first two stitches, 4 sc into ch4 space, sc in last two stitches (8 stitches)
5. ch1, turn, sc in each stitch across (8 stitches)
6. Repeat row 5 until the two ends of the strap meet around your wrist. Do not fasten off.

Fastening strap

1. Turn work. Slip stitch in first two stitches. Sc in next 4 stitches.
2. ch1, turn, sc in next 4 stitches (4 stitches)

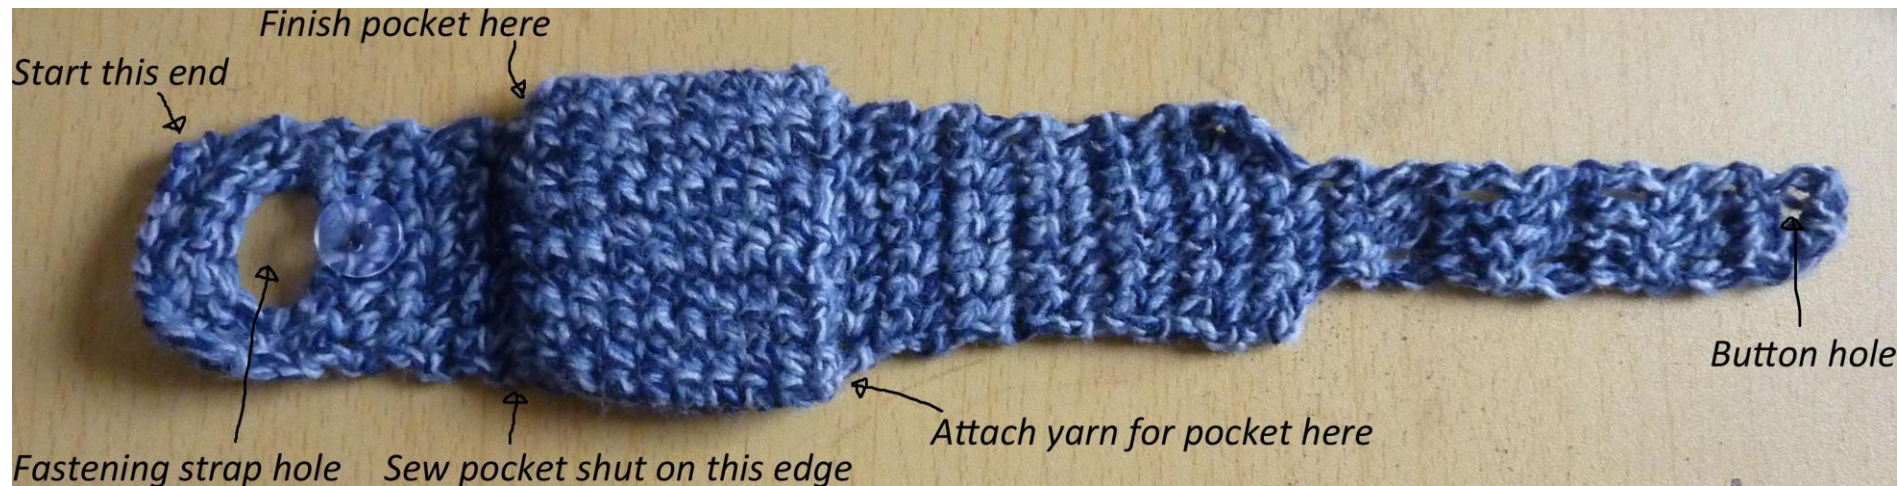

3. ch3 (counts as first dc), turn, skip first stitch, dc in next three stitches (4 stitches)
4. Repeat row 3 until fastening strap is approximately half the length of the main strap
5. ch1, turn, sc in first stitch, ch1, skip next two stitches, sc in last stitch
6. ch1, turn, sc in first stitch, sc in ch1 space, sc in final stitch. Fasten off.

Pouch

1. Place strap on wrist and mark position of band over back of wrist (see photo)
2. Measure size of mp3 player and determine the width of pocket required (mine is 10 stitches wide)
3. Attach yarn to side of strap with a slip stitch.
4. Sc along edge of strap for the correct number of stitches needed for your mp3 player (I did 10)
5. Ch1, turn, sc into each stitch made in previous row (10 stitches)
6. Repeat previous row until pocket flap reaches other side of strap
7. Attach flap to edge of main strap with final row of sc stitches, stitching through the edges of the rows of the strap. Fasten off, leaving a long yarn tail.
8. Use the yarn tail to sew the base of the pocket shut.

Finishing

1. Weave in ends.
2. Attach button to the strap above the fastening hole opening (see photo)

To use the cuff, lay strap with pocket on top of wrist, open edge facing. Place mp3 player in pocket. Insert fastening strap through hole, and pull back on itself (underneath wrist), wrap over top of wrist and secure with the button.
