This pattern is free. It is OK to share it as long as the attributions and website info remain attached.

My friend Bonnie Visser and I collaborated on this design. The socks are to be made on the Cindwood key-chain loom. All of the pix are Bonnie's and I use them with permission. The basic design is mine. The exact number of rows for the sock was Bonnie's choice. You can vary the size of your socks by changing the row count slightly. The sock shown is about 2.5" long. The photo at the upper left is quite close to actual size.

KNIT A SOCK

Use a #1 weight sock yarn. Double e-wrap cast on each peg to cast on. Knit 1, purl 1 all the way around the loom for 16 rows [rounds]. Using 6 pegs, short row in to 2 stitches, then short-row back out to 6 again. Use the German short-rowing method. It is fully explained in the video below and saves trying to wrap and turn in this tiny space. Knit 8 rows of the U stitch version of knit stitch. Make a toe in the same manner as the heel was knitted. Kitchener stitch the toe closed.

Bonnie had good success removing the stitches onto 2 small needles and Kitchenering [grafting] from there. Another option would be to knit a few rows of waste yarn and Kitchener from that. Links below show the videos in my Loom Knitters Sockumentary series that will help with any skills you need coaching on. You will need to copy and paste the links below into your browser.

The links above are correct. However in some browsers, it is necessary to remove the "s" after the http to get them to work.

I think these would make great earrings!
