# Easy-Peasy Leg Warmers

*By: Megan Grewal aka thewittyknitter*
*Super easy, customizable leg warmers for any size!
These are knit in the round, with only weaving in of
the ends to finish them off. Instructions for
customizing included. A quick and easy knit that
can be done in a day; isn't that satisfying?*

**Materials:** 400yds worsted weight yarn, stitch
marker, 4 double pointed needles or circular needles in size to obtain gauge as well as one
size smaller for rib (I used 3.5mm & 4.5mm 16"circular and did the magic loop), tapestry
needle to sew in ends.

**Stitches Used:** Rib 2x2 - knit 2, purl 2
- Stocking Stitch (st st) - knit all rows in the round

**Finished size :** 32cm around x 39cm long

**Gauge:** 20sts with 4.5mm needles in st st = 10cm. NOTE: it is more important to obtain
gauge than what needle size you use. Please do a test swatch for accuracy.

**Begin:** With smaller size needles, cast on 64sts and work in the round, in rib 2x2 for
about 6cm.
~Switch to larger size needles and knit every row, in the round, for stocking stitch. Cont
in st st until work measures 26cm from beg.
~Switch back to smaller needles, and work in rib 2x2 for another 6cm, then cast off
loosely.
~Make another leg warmer.
~Wear with pride ☺

**To customize your leg warmers**, measure the widest part of your calf around in cm. Add on about
5-7cm for ease. Divide that number by 10 (cm), then multiply by 20 (sts). The resulting number will be the
number of sts to cast on for your leg warmers. As you may have noticed, it is just a glorified tube ☺ After
ribbing is worked, cont in st st until you have reached your knee. Trying it on is the best way to see where
you are at. Once you have reached your knee, work the 2nd ribbing band. I like leg warmers to be a bit
baggy and this works well for growing children as well. Have fun!
